Languages

French

Mother tongue

Spanish

Assets

Autonomy

I'm able to follow instructions, learn alone from documentation of technologies such as Nextjs, TailwindCSS...

Adaptability

I easily adapt to new people, new work environments, new technologies and languages.

Patience

With a good temper, I always overcome hurdles pertained to development or interpersonal interactions with patience and respect.

Gilbert TEMGOUA DONKOO

Web developer

After more than a year of self-training and freelance work, I decided to formalize my skills in Web Development via the excellent course offered by Openclassrooms. I am now perfectly suited to meet all the challenges of this world at a dizzying speed of evolution. I know how to adapt and I'm thirsty to learn and extends my competences to backend development.

Work experience

FRONTEND DEVELOPPEUR

Since April 2023 [Bantubeat](#) Remote

- Transform Figma mock-ups into web pages using Nextjs, Typescript and Tailwind CSS.
- Review, clean and refactor code to ensure I maintain excellent code quality across all applications.
- Manage the frontend development team.
- Ensure smooth communication with APIs (REST and GraphQL) using client-side or server-side rendering.
- Debug applications.
- Help newcomers to get involved in projects.

Education

Web integrator developer

From October 2022 to March 2023 [Openclassrooms](#) Paris, France (online)
Professional certification registered in the National Directory of Professional Certifications at level 5 (code 326t) by decision of France Compétences published on December 15, 2021

Bachelor's degree

From October 2013 to July 2018 [University of Dschang](#) Dschang, Cameroon
Bachelor's degree in Physics, major: Electronics.

Skills

HTML/CSS/JS/TS

I know how to create impactful, interactive and very attractive websites using these technologies.

Reactjs/Nextjs/Tailwindcss

I create modern interfaces that respect web standards and SEO best practices.

Python

I use Python to manipulate data and to interact with VBA in order to automate Excel worksheets and workbooks management, PowerPoint presentation, Outlook email automation...

Computer skills

VS code

I have been carrying out all my web and Python development projects under this IDE for over 3 years.

Google Chrome, Mozilla Firefox, Microsoft Edge, Opera

They not only serve as internet browsers, but also and above all allow me to debug my web applications, and to test the compatibility of my code with the major versions of these browsers.
