Summary

Full-stack web developer with 3+ years of experience building high-performance web applications and e-commerce solutions in fully remote, async-first teams. Specializes in React, Next.js, TypeScript and GraphQL, with hands-on experience shipping multistore Magento 2 storefronts, admin dashboards and data-table interfaces, and internal management platforms with custom scheduling logic. Integrates REST and GraphQL APIs, manages complex async state (SWR, Redux, Context), and debugs across frontend, backend, database and network layers in large production codebases. Known for meticulous attention to detail, concise communication and a passion for continuous learning.

Technical Skills

- **Languages**: JavaScript (ES6+), TypeScript, PHP, Python, HTML5, CSS3, SCSS
- **Frontend**: React.js, Next.js, Redux, React Context API, SWR, Tailwind CSS, Alpine.js
- **Backend**: Laravel, Flask, FastAPI
- **CMS & E-commerce**: Magento 2, ScandiPWA, Hyvä, WordPress, WooCommerce, Akeneo
- **API & Data**: REST, GraphQL, SOAP, API integration, async data-fetching patterns (loading/error/edge-case states)
- **Architecture**: reusable component design, frontend architecture, typed and functional programming
- **Data Interfaces**: admin dashboards, data tables (sorting, filtering, pagination), data visualization
- **Performance & Accessibility**: profiling, caching strategies, responsive UI, pixel-perfect Figma-to-code, accessibility best practices
- **Testing & Quality**: Playwright (e2e), Vitest, JsDom, React Testing Library, PHPUnit, pytest, code review, refactoring
- **Tooling & DevOps**: Git/GitHub, GitHub Actions, CI/CD, Docker, Jira
- **AI**: Claude Code, Cursor, RAG and agentic AI

Work experience

Web Developer - Scandiweb | Remote | 07/2024 - 04/2026

- Built and shipped full-stack features on ScandiPWA, a production React + Redux + GraphQL storefront theme for Magento 2, for global e-commerce clients ranging from YC-stage startups to enterprise merchants.
- Engineered Magento 2 storefronts with Hyvä (Alpine.js + Tailwind CSS), optimizing for performance, accessibility and responsive behavior.
- Developed billing-critical interfaces and flows (pricing, totals and payment states) with careful edge-case resilience.
- Integrated GraphQL queries and REST API calls, establishing efficient, reusable data-fetching patterns across storefront features.
- Built and maintained a WooCommerce e-commerce store.
- Built and maintained the company's internal employee management platform for project assignments, vacation planning and tracking, including custom scheduling algorithms.
- Debugged issues across frontend, backend, database and network layers in large, unfamiliar codebases.
- Wrote and maintained technical documentation for new features, reducing onboarding friction and improving team velocity.
- Collaborated async with designers, product owners, project managers and clients across time zones to deliver against strict UI/UX and business requirements.

Frontend Developer - Bantubeat | Remote | 03/2023 - 07/2024

- Built the admin dashboard for Bantubeat's applications (the internal interface for managing app data and operations) using Next.js, TypeScript, React and Tailwind CSS.

- Built data tables with sorting, filtering and pagination for managing records, with loading, error and empty-state handling via SWR and Redux.
- Built responsive, pixel-perfect user-facing interfaces from Figma mockups, following accessibility best practices.
- Implemented state management with React Context API and Redux, and managed async data layers with SWR across product surfaces.
- Led the frontend team: mentored newcomers, reviewed code and ensured on-time delivery across concurrent projects.
- Wrote end-to-end tests with Playwright and unit tests with Vitest, JsDom and React Testing Library, catching edge cases before production.
- Refactored and cleaned code to maintain reusable, maintainable component standards across all applications.

AI AI Trainer - Micro1 | Remote | 08/2026

- Contributed to AI model training by recording instructional videos and capturing diverse image data under strict quality guidelines.

Education

Openclassrooms - Paris, France (online) |10/2022 - 03/2023

Web integrator developer

Professional certification registered in the National Directory of Professional Certifications at level 5 (code 326t) by decision of France Compétences published on December 15, 2021

University of Dschang - Dschang, Cameroon | 0/2013 - 07/2018

Bachelor’s degree

Bachelor's degree in Physics (Electronics, Electrotechnics and Automation)

Certifications

IBM RAG and Agentic AI – Coursera

Verify Credential

Languages

- English (fluent)
- French (native)
